

EGM AUDIO Metalised Polyester MKT

The high-quality EGM polyester capacitor is ideal for use in loudspeaker crossover networks, it is also suitable to use as coupling capacitors in the signal path of audio power amplifiers and preamplifiers. 250VDC, 5% tolerance, high purity, low-loss.

Specially designed for crossovers
5% tolerance. 250 VDC
High purity & High current capacity

Specification				
	Value (µF)	Tolerance	Size (mm)	Volts
	3.3 µF	5%	25x10 Ø mm	250 Volts
	3.9 µF	5%	27x19 Ø mm	250 Volts
	4.7 µF	5%	37x21 Ø mm	250 Volts

	5.6 µF	5%	47x19 Ø mm	250 Volts
	6.8 µF	5%	47x20 Ø mm	250 Volts
	8.2 µF	5%	47x25 Ø mm	250 Volts
	10 µF	5%	47x26 Ø mm	250 Volts
